LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician!

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it not a truth that when leather is often wet, and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative it remains soft, and entirely impervious to water.

After being engaged for 20 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

BRITISH REVIEWS.
L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:
THE LONDON QUARTERLY (Conservative.)
THE EDINBURGH REVIEW, (Whig.)
THE NORTH BRITISH REVIEW (Free Church.)
THE WESTMINSTER REVIEW (Liberal.)
BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)
These Periodicals always represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.
EARLY COPIES.
The receipt of ADVANCE SHEETS from the British Publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

CLUBBING.
A discount of twenty-five per cent from the above price will be allowed to Clubs ordering four or more copies of any one or more of the above works. Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30, and so on.
POSTAGE.
In all the principal Cities and Towns, these works will be delivered FREE OF POSTAGE. When sent by mail, the POSTAGE to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Forty-eight Cents a year for each of the Reviews.
N. B.—The price in Great Britain of the five Periodicals above named is $36 per annum.

American Safety Paper
Manufacturing Company of N. Y.
Capital $500,000.
A. NICHOLAS, President. Office, 70 Wall-st.
A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.
HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New-York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices.
Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—0 cts. per lb.
Wills and Deeds—40 cts. per lb.
For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.
For Indentures and Agreements, 40 cts a lb.
All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.
For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper make it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on, and destroy all other paper now in use.
The Company have now in operation Mills in Morris County, N. Y., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.
All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

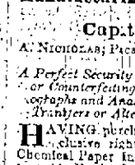
IMPORTANT DISCOVERY!
CONSUMPTION CURABLE
BY THE USE OF



The most powerful and effectual remedy ever discovered for the treatment of PULMONARY CONSUMPTION. This medicine, as a cheap combination of VEGETABLE products and possesses all the rare, medicinal properties so long and eagerly sought for by the profession. It is the result of diligent study and research through a long series of years, and is now, for the first time, presented to the notice of the public.
In every case of suspected PULMONARY CONSUMPTION, where it has been tried it has proved, beyond any doubt, to be an EFFECTUAL REMEDY. It is a very agreeable and pleasant medicine, and a trial of its merits earnestly recommended to every person who has a cough, or who may be predisposed to Consumption, as a remedy of no ordinary value, with the assurance that, if the directions which accompany it are faithfully adhered to, it will prove to be a SOVEREIGN BALM, restoring the healthy functions to all the organs of the body.
Directions in English, French, and German accompany each package. Price $3 per bottle.
All orders by mail or express, accompanied by the money, will be promptly attended to.

TRIESMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.
TRIESMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.
TRIESMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury, to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.
TRIESMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Not in all cases and divided in separate doses, as advertised* by Valpeau, Lallemand, Roux, Ricord, &c. Price $3 each, or four cases in one for $9, which save $3, and a 27 cases, whereby there is a saving of $9.
Special arrangements have been made with the various Expressmen, the most reliable lines of the Triesmar, and the largest stock will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus secreting to the public genuine, European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar case cannot be sent, but for cash.

Clubs for all Clubs of Twenty, and over the yearly subscription is only $1 00.
The new volume will be printed upon fine paper, with new type.
The general character of the Scientific American is well known, and, as heretofore, it will be chiefly devoted to the practical, and information relating to the various Mechanical and Chemical Arts, *Manufactures Agriculture, Patents, Inventions, Engineering, Mill Work*, and full instructions, which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding. It contains annually from 800 to 1000 finely executed Engravings, and notices of American and European improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers. It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.
Specimen copies will be sent gratis to any part of the country.

"The Model Republic."

This honorable appellation formerly accorded us in all sincerity throughout the civilized world is now fast becoming a term of reproach and a hissing and a by-word among the nations

For this deplorable change in the sentiments of mankind towards us, we have to thank, not so much the increasing lawlessness and outrageous acts of a few filibusters and other mad caps as the growing disposition among certain politicians, and of the people in at least one part of the country, to justify and even applaud the piratical practices. The two opposite causes, as the chief cause of the ill reputation which we have fallen of late years, but it is not the only one

The second, both in importance and precedence, on our part, is the readiness of so many of our public men to lend their influence to efforts to nationalize slavery as a fundamental feature of a free society, (God save the mark!) and to enlarge indefinitely the theatre of its operation

These two are the leading aims of the Southern slavocracy,—aims whose success would be impossible but for the aid and encouragement they receive from Northern men with Southern principles

Evidently the end of this state of things is not yet, but the day is at hand. A calm resolute, unappeasable determination to destroy and set as decidedly such time serving political councils, is fast fixing itself in the public mind of the North. It is but a very few years since the South was all powerful at Washington and she can command a majority to this day yet is she conscious of a coming reckoning. The cloud, but recently no bigger than a man's hand in the Northern horizon is visibly, but surely spreading itself in every direction and is destined to cover the whole heavens

NORTH AMERICAN REVIEW.—The number for January containing ten original papers and thirty notices of books makes a handsome volume of three hundred pages. The first article, on "The Public Economy of Athens" is equally interesting, to the Republican and to the classical student of modern times. Articles second, The Profession on the Schoolmaster is an able effort to elevate the teacher to his true place in public opinion. "Reformatory Status of, at Home and Abroad" that of the third article well indicates its character. "Verse" is a historical sketch of what was once the most important city in the world of commerce. Ireland, Past and Present, and Anatomical Architecture are the titles of the two following papers. "The Financial Crisis" reviews Samuel Hooper's pamphlet on "Currency or Money," and sustains his hard money theory. The next article Jerusalem is a review of Dr. J. T. Barclay's "City of the Great King." A pretty full article on "Contemporary French Literature," and a short and not very flattering review of Lowell Biggraphical History of Philosophy" concludes the list.

DISCOVERED.—Wm. Rix Clowes, aged 22, committed suicide at Richmond Va on Wednesday last by taking laudanum. The deceased left a note stating that he committed the act deliberately, because he was poor, discontented and tired of life. He had formerly been a border ruffian in Kansas, and subsequently a filibuster under Walker in Nicaragua and we should think it time he was discouraged.

LAUNCH OF A RUSSIAN STEAM CORVETTE.—The new steam corvette which has been in course of construction at the yard of Mr. Paul Curtis of East Boston for several months past was launched on Monday. She was built for the Russian Government, and is intended for the navigation of the river Amoor. She is called the Manjoor and is about 900 tons burden.

Chas. L. Carter the murderer of Mr. Tenney, Warden of the Charlestown State Prison, died in the Boston jail of pleurisy on Monday last.

In regard to the Kansas election of the 21st of December, the Tribune's correspondent says:

Much doubt still shrouds the result of the bogus election, but that it is going to prove one of the most flagrant of Kansas frauds, is now certain. 2900 votes are returned from Johnson county, 1200 at Oxford, 800 at Shawnee and the other 800 at a few other Pro-Slavery holes. Of course no such vote was ever polled. It is a mere swindle of returns of the most barefaced character.

FROM WASHINGTON.—We take the following from the correspondence of the New York Times:

Gen. Walker left to day for New Orleans. He will demand a trial there, and if he gets it, will introduce positive testimony shewing that the President months ago encouraged him in his Nicaraguan enterprise.

It is rumored also that certain intercepted letters are in possession of a party in this city, establishing the complicity of the Administration formerly, and that these may be exposed in Congress before the current debate closes.

The Hospital for the Insane.

We are indebted to the Superintendent, Dr. Harlow, for a copy of the Annual Reports upon the affairs of this institution.

The Trustees state that they have visited the Hospital each month, and found the patients well cared for, and the building kept in a neat condition—the bedding and clothing of the patients comfortable and clean—their food wholesome and well prepared—and their condition as favorable as the nature of their cases admits.

An appropriation is asked for of $676 for balance due on the warming apparatus, $425 for painting which is needed, and of $2500 for extending the barn room for storing crops, and for putting a cellar under the barn.

From the Superintendent's Report we learn that the prosperity and usefulness of the institution has been more than ever manifested during the past year. The number of patients has been greater, and the success attending their treatment very gratifying.

There have been 144 patients admitted during the year—79 males and 65 females. Discharged during the year 120—60 males, 60 females—leaving in the Hospital on the 30th of November, 209 patients.

Of those discharged 69 were recovered—24 improved—and 19 unimproved. 14 have died—by consumption 3, exhaustion 3, dropsy 2, marasmus 2, congestion of brain 1, heart disease 1, apoplexy 1. The number of deaths was less than for several previous years. There has been no death from suicide in the institution, for more than twelve years—and only two have been in the Hospital who opened the old age one, a blow on the head, one, loss of sleep one suppressed eruption, one unknown fifty one.

Seventy of the new patients were decidedly predisposed to insanity. The Superintendent quotes the following from another writer:

A predisposition to it is transmitted from parents to children, and all along the pathway of life, there are circumstances occurring to develope and mature the fearful malady. Correct early training or education of children we deem of the utmost importance, to be observed as a preventive means, against cranks in after years.

Speaking of the causes of insanity from hard straining or overworking the brain in childhood he says writer says:

Several instances of the evils resulting from over tasking the brain of children have come to my personal knowledge among which are the following: one young man who is now an inmate of an Insane Asylum, where he has been for five years—a result occasioned by overtask on the brain. A young lady a year since, was taken with head ache and delirium of the brain. Her mother kept her out of school half a quarter, and she was cured. A boy of eight years, did not sleep any for three nights constantly coming in crying of his head and thinking of his lessons. Many cases of a similar purport could be cited, to prove that the children are over tasked, and the parents should be enlighted on the subject. I would by all means have education advance but let it be done right, according to the laws of natural philosophy. If those laws will allow the tender brain and growing brain of a child to be taxed as I would with lessons, four terms in a year twelve years in success on without injury—why then so let it be—but if upon inquiry it be found otherwise then let us have a reform.

[For the Whig and Courier.]

It is an ascertained and well known fact, that intemperance is a fruitful cause of insanity, both directly and indirectly. Every year we are called upon to treat the poor victims who come and bodies are writhing in the coiling grasp of the monster, sapping as it were the very life blood from all that is noble and God like in man. It would be a feature in some degree palliating if the baneful effects of intemperance were confined to the unfortunate individual himself but such is not the fact. The quantity of the poison a visited upon the children unto the third and fourth generation.

During the seventeen years since the Hospital was opened, 1662 patients have been under treatment. Of these 764 have recovered, 32 discharged improved, 42 unimproved and 229 have died.

At the present rate of increase, the Hospital will be filled to its utmost capacity in two years.

THE JEWELRY BUSINESS IN PROVIDENCE.—The Providence Journal gives some statistics of the Jewelry business in that city.

The extent of the trade, we have no doubt, will surprise most of our readers. The aggregate number of persons who directly rely upon it for support—including employers, clerks, salesmen and travelling agents—is more than seventeen hundred. If each of them has two others dependent upon him—and this is a very low estimate—one in then one tenth of the population can upon the manufacture of the precious metals for their means of living. The wages and salaries paid in prosperous times must exceed the sum of one hundred thousand dollars per annum. The labor and expense of the manufactured article is estimated to be about one third of the entire cost. If this estimate be correct, the value of the whole annual product of the business can not fall much short of three millions of dollars.

Nearly twelve hundred persons in this branch of business alone are now deprived of their accustomed labor.

SMOKING RAILROAD ACCIDENT.—The Western train which left this city last evening, met with a most serious accident at Duck Creek bridge, by which the engineer, Wm. Morgan and the fireman, Mr. Harney, lost their lives. The train was running at its usual slow speed while approaching the bridge and when it had reached the first end of the bridge the engine struck a piece of timber some 28 feet in length and 4x12 inches in size which had been placed there by some inhuman monster, who wished to work vengeance upon the railroad company, at the expense of human life and destruction of property. The engine in passing over this obstacle was thrown from the track, and struck among the timbers of the bridge, breaking them at once, and was precipitated some twenty feet into the mud and water below, into which it sunk almost out of sight, burying beneath it the the engineer and fireman, and of course killing them instantly. The tender and baggage car followed and were precipitated into the same gulph, another car did not follow, though it was thrown from the track.—*Cincinnati (Iowa) Dispatch.*

Smith & Estes, Kenduskeag Bridge, hung up on their stalls, yesterday, the best specimen of beef we have seen for the season. The animal may be exceeded in weight by others, (weighing about 1300 pounds) but can hardly be excelled in fatness and richness of appearance.

At an election of officers, to fill vacancies in the C. Company, Grattan Guards, the following selections were made:

Captain, M. Boyce,
1st Lieutenant T. Cassidy,
3d Lieutenant E. Taggart.

The Machias Union says, the barn of Aaron Sewer at Crawford, was burned on the morning of the 4th inst. Sixteen tons of hay, a quantity of stores, one horse, two colts, five sheep, and a hog were consumed. Loss about $600.

Mr. Benjamin L. Cushman, formerly Superintendent of the Androscoggin Railroad, has been chosen Chief Manager of the Kennebec and Portland road. This combines (says the Farmer) the offices of President and Superintendent.

NEW JAIL IN WASHINGTON COUNTY.—A public meeting was held in Machias last week, in favor of having a new jail in that place.

A small tenement, on St. John street Portland, owned and occupied as a residence by Seth Martin, was entirely consumed by fire on Monday evening about half-past nine o'clock. The fire was occasioned by the breaking of a fluid lamp among a quantity of shavings.

Among the new patents granted during the week ending Jan 5th, was one to George A. Mitchell of Turner, Maine, for metal tips for toes of boots and shoes.

The Waldo County jail is full. Thirty boarders are now accommodated there. We believe the jail in this city is pretty well stocked.

Mr. G. W. Hathaway, (who we suppose is a minister) advertises in the Skowhegan Clarion that he has found a barrel of flour on his door step—and assures the owner that he will dispose of it with pleasure and gratitude.

Nearly two inches of rain fell in Portland during the storm of the 11th inst.

A NOVELTY.—An Old Folks Concert for the benefit of the poor, is to come off to night (14th) at Bethel. The performers will appear in the costumes of a hundred years ago, and sing the music of that period.

The store of Wm. Coombs Esq., at Branch Mills, China, was broken into on Wednesday night, 6th inst., and about $26 in small change taken.

MAINE SEAMEN DIED IN CALLAO.—The following named American seamen, belonging to this state died in Callao, Peru, between July and September of last year: Jos. Davis Portland; Wm. Acate, Bath; Thomas Williams Pittston.

SHOCKING CALAMITY.—Two Boys Burned to Death.—About four o'clock on Sunday morning last the log house of Aaron Scribner and Samuel Harvey at Sam Pond, about eleven miles from Patten on the road to the East Branch was consumed by fire, and horrible to relate two sons of Mr. Scribner aged eleven and three years perished in the flames.—These boys occupied the attic of the house in which portion the fire took. In the lower part were Mr. Scribner and daughter Mr. Harvey and his mother and two woodsmen. The women were saved in their night clothes, and Mr. Scribner escaped with his under clothes, and had his shirt burnt off; and his back scorched. The woodsmen lost their hats and boots, and everything else was entirely consumed. The escaped inmates took shelter in the barn until clothing was obtained, and they were conveyed to Patten. The house is known as the Shin Pond House by travellers and woodsmen. Mr. Harvey got up about three o'clock in the morning and built a large fire and turned in again, and the fire caught in the upper portion of the house. The bones of the boys were found among the ruins.

Coughs, colds, soreness of the chest, and bronchial irritation, which are among the existing causes that tend to produce Consumption in those that are predisposed, are all removed and effectually cured in a very few days by that most remarkable discovery of the nineteenth century, Fowle's Fabulum Vitæ. See advertisement.

THE AURA OF UTAH.—It may be a matter of some interest to our readers to know something of the comparative extent of that Territory of the United States, whose chief officer is bidding defiance to our government. According to Colton the area of Utah is 269 270 square miles. Topographers, and a few others, this will give a just idea of its vast extent, but the majority of people will form a better estimate by being told that it is as large as the whole of the New England States, New York, New Jersey, Pennsylvania, Delaware, Maryland, Kentucky and Tennessee.

DEEPEST WELL IN THE WORLD.—The Louisville (Ky.) Courier, says that the Artesian well of the Messrs. Dupont, of that city, has now reached the depth of 1900 feet. It adds:—This is the deepest well now known to us in the world. The next depth is the well at Grenelle, near Paris which is 1800 feet.—Louisville had therefore the deepest well in the world, and the tallest steeple in the United States, the cross on the St. Louis Cathedral being 286 feet high, while the summit of Trinity, New York, is only 284 feet.

—It is stated that two more volumes of Lord Macaulay's History, bringing it down to the end of the reign of Queen Anne, are approaching completion, and that they will soon be published.

LEGISLATURE OF MAINE.

TUESDAY, Jan 12.

In convention, Andrew Wiggin was chosen to fill the vacancy in the Penobscot Senatorial District—receiving 115 votes, to 43 for William Oakes.

The SENATE proceedings were not important.

In the HOUSE—

Mr. Prentiss of Bangor, presented petitions of Rufus Dwinel for extension of time to cut timber on half Township No 4, R. 4, and of Isaac M. Bragg for a dam on west branch of Matiawamkeag.

An order passed directing the Judiciary Committee to inquire into the expediency of repealing the "publishment" section of the marriage law.

Mr. Woodman of Bucksport, offered the following order, which was passed.

Ordered That the Joint Select Committee on printing and binding be directed to examine and report what retrenchments may be had in the matter of printing and binding, the printing of what reports, journals pamphlets, &c may, without detriment to the public interest, be dispensed with, and whether in other cases their contents may not be materially condensed.

On motion of Mr. Buxton, of Warren,

Ordered That the Committee of State Printing be directed to inquire into the expediency of authorizing the heads of the various departments to make contracts for the printing of the several departments.

THE RED MEN IN WASHINGTON.—The Indians now in the metropolis are indefatigable in sight seeing and have visited most of the public buildings in a body. At the Smithsonian Institution, they were conducted through the various apartments, and frequently evinced their delight after their wild fashion.

In the picture gallery (filled with Indian paintings) they were particularly interested by the representation of a war dance around two captives—a woman and a child. They were much disappointed at not finding portraits of any of their own tribes in the gallery.

In the apparatus room a number of them were induced to join hands, and a severe galvanic shock was given them. Some of them gave vent to the significant "Ugh," indicating their surprise, and turned fiercely about to discover the person they supposed had struck them, others rubbed their arms and elbows and from the general talk in their own language one would suppose they had entered upon a scientific discussion of the nature of this singular manifestation.

Afterwards some of them took strokes smartly and it was curious to witness the gravity of countenance with which these stoics of the wilderness undertook to assume the air of unconsciousness which traditionally asserts they maintain when undergoing tortures as captives.—But it was no go, they had to knuckle to science and as one after the other of the assembled braves was doubled up, tumbled up on his knees, and knocked into a heap generally by the powerful battery he was called by most uproarious jeers and laughter by his own fellows.

Some of the party mounted the high north tower of the Institute, but when at the top only one of them could be prevailed upon to look down the dizzy height—most of them squatting down as soon as they reached the summit.

One of them was observed placing small pieces of tobacco on the parapet. The interpreter explained that this was intended as an offering to the great Spirit and the Indians believed that at this height they were nearer the Deity than they had ever been before, and accordingly improved the opportunity to pay their worship.

On descending the Indians had a grand war dance, with a singing in the lecture-room, and shortly after concluded this visit, most interesting to both the Indians and the pale faces present.—*Washington Union, 7th inst.*

The Lecompton Constitution is doomed.—Mr. Brown of Mississippi yesterday formally abandoned its advocacy in the Senate, and the country will not be troubled with it much longer. Mr. Buchanan and the fire eaters are broken down. The thanks are due to the great and formidable Republican party, and not to any number of frightened Democrats fearful not only of the annihilation of their party, but of their own personal annihilation as well.—But for the enormous majorities rolled up for Fremont in most of the Northern States, and the compact and united front and growing power which the Republican organization continues to present, who can suppose that the authors of the Kansas Nebraska bill, and the apologists for all the outrages of 1855 and 1856 in Kansas, would ever have had the nerve for the previous course and lent themselves to the objects if not to the principle of the Republican cause? It is a magnificent tribute to the truth of the doctrines and the wisdom of the policy on which the Republican party is based, that its most vehement enemies are thus forced substantially to do its work.

Where stands the Democratic party after this momentous intestine struggle, and after the triumph, for the first time in 30 years, to present the form of the Northern elector.—That is a question whose answer time only can fully determine. But, certainly there is no reason for Republicans to doubt as to the future when the party against which they are contending is thus obliged to choose between destruction from within by the adoption of one great Republican measure, or the election of Kansas into a Free State.—*N. Y. Tribune.*

RUSSIAN SLAVERY.—It appears that the Russian government has fixed in the following manner the mode in which the emancipation of the peasants is to be effected. It will take place not all at once, but successively, at three periods. In the first, the relations between the peasants connected with the soil and the state will be fixed—that is to say, they will be admitted to possess a political existence (and their obligations to their lords will be legally traced out. In the second period, serfdom will be suppressed; and in the third the payments in kind will be converted into a fixed rent, and the mode of redeeming such rent and the equalization of free property of the peasants will be regulated.

A FAMILY FOUL.—Between 6 and 7 o'clock on the evening of the 19th ult., a dense fog covered the streets of Paris. The darkness was so complete that a pedestrian could not distinguish an object at a short distance from him. In some streets it became impossible for coachmen to continue their course. In others, coachmen were obliged to descend from their seats and lead their horses, calling out at the same time, to avoid a collision, with other

A Mysterious Lady!

The Great Natural Astrologist!

Madame Jarvis,

Formerly of New York, has taken rooms at No. 4 Smith's Block, Kenduskeag Bridge, where she will remain for a short time, and can be consulted on all matters of importance connected with the past, present and future. Madame Jarvis is a lady who has been visited by thousands in the city of New York, and has given entire satisfaction to all who have called upon her. Her success has been unparalleled by any Astrologist that has ever visited this city. Her rooms are fitted up in a splendid manner, and she has all the conveniences that can be desired. Her parlors are open from 9 A. M. to 9 P. M. Ladies and gentlemen are invited to call and see her.

FOR A SHORT TIME,

And feels confident to say that she can give satisfaction to all who may wish to look into the Mysteries of the Past, Present or Future. Consult Marriages, Divorces and Separations. Absent friends can be seen with the gift. Ladies 25 cts.—Gentlemen 50 cts. Room 2d Avenue House.

FROM THE DAILY WHIG AND COURIER

LATER FROM EUROPE.

ARRIVAL OF THE

North America,

AT PORTLAND.

PORTLAND Jan. 14th.

The steamship, North America arrived at Portland 8 o'clock evening—sailed from Liverpool at 9 o'clock morning of the 30th.

Trans Atlantic steamer Isaac Is chartered to convey troops to India.

Financial Affairs.

Saturday 26th was observed as a holiday in mbnetary circles. The Bank of Ireland followed example.

The bank of England has reduced rate to 8. Bullion still rapidly augmenting.

Money continued to grow easier and every prospect of further reduction in bank rates.

Great Britain.

The Court Circular reiterates the story that the King of Holland intends to demand the hand of Princess Alice for young Prince of Orange, altho' nothing official has yet transpired in the matter.

Earl Spencer is dead.

Lord Althorp has just returned from the United States, and succeeds to peerage.

Lord Harrowby has resigned the office of Privy Seal, on account of ill health. Lord Clearsdale succeeds him.

London, Wednesday, Dec. 30.—The Times City article says—The funds opened steadily and showed a tendency to increased firmness, during the whole day, until after regular hours when a sudden decline took place, attributed to operations in connection with the failure of the dealer announced yesterday. Money was in rather increased request, consequent upon the approaching termination of the year, but there was a full supply for loans on government securities at 3½ per cent., and at 3 and 7-8 per cent. in the discount market. About £40,000 in gold was sold to the bank to-day, and there was an arrival of 30,000 sovereigns from Scotland.

The Daily News city article says—The funds to-day were principally affected by considerations connected with the position of the account of the large operator whose failure was announced yesterday. The market for the moment is quite deranged by the event, owing to the belief that the defaulter has transactions open to the extent of considerably over a million, chiefly in options.

At the Bank of England the demand for money to-day continued very moderate, owing to the fact that good bills are rapidly discounted in the open market from 7½ to 7 per cent. The amount of gold purchased by the Bank of England to-day was £40,000 sterling of £90,000 or £100,000 in bar gold and United States coin.

As money becomes easier in this market and commercial affairs resume to some degree of our normal aspect, the exchanges between this country and the continent continue to droop. This afternoon the rates were quoted lower for bills on nearly all the leading continental markets.

Commercial Failures.

It is stated in the Times City article that yesterday, two suspensions were announced, the first being that of Messrs. Tapton Mosson & Co., an old house of good repute in the Manchester trade with liabilities for about £30,000, while the other is that of Messrs. Hinton, Bros., & Co., of old Bread street. In neither case, however, are the prospects of liquidation unfavorable.

Burning of the Sarah Sands.

A letter from Capt. Castle, commander of the Sarah Sands, is published, describing the partial destruction of the ship and the escape of the troops and crew. The fire was discovered at 3 46 P. M. The precautions adopted have already been given. The flames burst through the upper deck about 9 P. M., and a fearful explosion took place in the port magazine. By this time, says Capt. Castle, the ship was one body of flames from the stern to the main rigging, and thinking it scarcely possible to save her, I called Major Brett, in command of the troops, forward, and told him my opinion, requesting him to endeavor to keep order among the troops till the last, but at the same time to use every exertion to check the fire.—No person can describe the manner in which the men went to keep the fire back; one party were below keeping the bulk head cool, several of whom were dragged up senseless, and fresh volunteers took their places, but were soon in the same state.

At 11 o'clock P. M. the main topsail yard took fire. Mr. Welsh, quartermaster, and four or five soldiers went at it with wet blankets and succeeded in extinguishing it, but not until the yard and mast were nearly burnt through. About midnight we appeared to have made some impression on the fire, and after that drove it back inch by inch until daylight when it had been completely got under. The ship now appeared in a fearful plight—merely the shell remaining the port quarter blown out by the explosion, 15 feet of water in the hold, and the ship rolling heavily and taking in large quantities of water aft.

There is scarcely any news of general interest in this morning's journals.

It is announced that at the close of the year Mr. David Dundas Chapman will retire from the firm of Messrs. Overend, Gurney & Co.

India.

The Bombay mails of Dec. 4th, had reached England. The news of the relief of Lucknow is confirmed. The enemy fought desperately. The rebels had not evacuated Lucknow. Sir Colin Campbell asks for reinforcements, although his force is computed at 12,000, in fine order. The women, children and sick were conveyed safely to Cawnpore. The fighting before Lucknow was very severe. On the 16th, the enemy suffered enormously; the fighting that day was one of the severest ever witnessed. On the 19th, the enemy were flying in great numbers from Lucknow; and the firing had nearly ceased. After the fight of the 16th, the bodies of 1200 Sepoys were counted in one place.

The latest accounts are not very intelligible. Two telegraphic clerks had been murdered near Allumbagh, the news being therefore stopped.

When Campbell left Cawnpore on the 11th, he rode forty miles at a stretch. In his engagement, he relied on the artillery as much as possible, thereby avoiding unnecessary loss of men.

Nenah Sahib, with all his men and baggage, is said to have joined the rebels at Calpee.

The Gwalior contingent was still at Calpee, divided counsel being said to be the cause of their inaction.

It is reported that the king of Delhi's son and his two nephews, after being tried by military commissioners, have been shot.

The steamer Khersonese arrived at Madras leaky.

The Bombay correspondent of the Daily News says, that the rebels at Oude have placed a boy on the throne and keep him in state at Fyzabad, a city of 100,000 inhabitants, defended by a large fort with wall and ditch and round towers; and new entrenchments. Here the last great stand may be expected.

France.

The Senate is convoked for Jan. 18th. The Council of State, presided over by the Emperor, has declared against the system of obligatory Agricultural Insurance.

The Times' Paris correspondent is assured that all exiled Generals have had permission given them to return to France, without condition of any kind.

Naples.

Fresh shocks of an earthquake were felt at Naples on the 19th and 20th, but no accident.

Germany.

The Vienna correspondent of the Times says—We learn from Hanover that the European powers are about to make an energetic attempt to get rid of the state duties. England is willing to pay some indemnification, but the Washington government is not unlikely to act as it did towards Denmark a few months before the Sound dues were abolished. The same authority gives a rumor that another and more important reduction in the Austrian an army is to be made in 1858.

Russia.

The navigation of the Sea of Azof has closed for the season. Circassian chiefs have sent a petition in the great European powers, praying, that the treaty of Paris, which forbids hostilities in the Black Sea, and opens the commerce of the Circassian ports, may be enforced against Russia.

China.

Hong Kong dates end of Nov. 15th. The American commissioner arrived at Hong Kong in the Minnesota. The fleet is about to move into Canton river. The French fleet will cooperate with the English. Operations are expected to be commenced immediately.

The Russian Commissioner was at Hong Kong.

It was rumored that Lord Canning, as soon as transports could be procured, would send 24.0 troops from India to China.

At Shanghai business in imports moderate. Exports dull. Freights unchanged. Silk declined 10 to 15 dollars.

Liverpool Markets.

Richardson, Spence & Co. report flour very dull, at a decline of 6d a 1s. Cornmeal. Provisions are generally dull.

SECOND DESPATCH,

CONGRESSIONAL.

WASHINGTON, 14th.

SENATE—On motion of Mr. Bell, a resolution was adopted requesting the Secretary of War for the report of the commission on war claims in Oregon and Washington Territories.

Mr Houston gave notice of his intention to introduce a bill to provide for the admission of Kansas into the Union as a State.

The joint resolution directing the presentation of a medal to Com. Paulding, was made the special order for Wednesday next.

The Senate did no other business of importance, and after an executive session adjourned.

HOUSE—Mr Kelley presented the petition of Benjamin Price and 500 others, citizens of New York, asking Congress to pass a law giving republican lands to actual settlers.

The House went into Committee of the Whole on the President's Annual Message.

Mr. Stephens of Ga., affirmed that under the neutrality laws they now stand, owing to this imperfect phraseology, the President cannot at all use the army and navy. But for Paulding interposition, Walker would now be secure in possession of the Presidency of Nicaragua, and he was the only legitimate magistrate of that country.

He repeated that Walker and his men should go scot free and fully indemnified for losses by the conduct of Paulding who kidnaped them.

Mr. Blair gave notice of his intention to offer a resolution for the appointment of a committee with instructions to enquire into the expediency of acquiring territory by treaty or otherwise in Central or South America, for the purpose of colonizing there the free blacks from this country, and those who may hereafter obtain their freedom, to be protected as a dependency under the flag of the United States.

Mr. Bocock moved that the House go into Committee of the Whole on the state of the Union.

Mr. Letcher moved that the House go into Committee of the Whole on the Private Calendar.

Mr. Bocock's motion was agreed to—ayes 97, noes 90.

So the House went into Committee of the Whole on the state of the Union, Mr. Phelps in the chair.

Mr. Bocock addressed the House in favor of the admission of Kansas under the Lecompton Constitution.

Mr. Stanton endeavored to engraft an amendment, tendering thanks to Paulding for his patriotic and spirited conduct.

It was ruled out of order.

Mr. Leiter sent up an amendment, the reading of which occasioned much laughter, proposing that an inquiry be made as to whether Gen. Walker was induced to enter upon a filibuster expedition by the Ostend Manifesto and the letter of the Secretary of State, produced at Filibustering meetings, held in New York and elsewhere.

The resolution to refer the subject of Military expeditions to the Judiciary Committee was amended with instructions to enquire into the expediency of amending the neutrality laws.

The proposition by Mr. Phelps, to refer the subject of the Pacific railroad to the select committee of 13 was debated but not concluded.

The Committee then rose and the House adjourned.

Various Matters.

ST. LOUIS, January 14.

The Republican has letters from Camp Scott, the Head Quarters of the Army of Utah; but they contain nothing important in addition to that already reported.

Kansas returns arrive but slowly, and the result is still uncertain. Disturbances occurred at Kickapoo, and a good deal of excitement prevailed at Weston, Mo., where Calhoun and others had gone for safety. At a meeting at the latter place, resolutions were adopted expressing the determination to withhold all armed interference in Kansas affairs.

The Legislature of Mexico had organized by the election of Don Octava Vigil as President of the Senate, and Merrill Ashurst of Alabama, Speaker of the House.

The Santa Fe Gazette has been purchased by a party of gentlemen who design putting it on a permanent basis. It will support the administration.

Gov Rencher's message calls the attention of the legislature to the mineral and agricultural wealth of the Territory, and the importance of establishing Courts in each county.

NEW YORK, Jan. 14.

Morgan L. Phillips, a colored physician, was arrested for the murder of James Robertson, also colored, last night, near the Astor House, and confessed the crime. The jury have rendered a verdict of justifiable homicide.

NEW YORK, Jan. 14.

The Washington correspondent of the Post announces the organization of the Central American Emigration Co. A New York capitalist has been chosen President.

He also asserts that the Lecompton democrats will oppose the admission of Minnesota on the ground that the enabling act limited the delegates to the Constitutional Convention to 108. This is to keep out the Douglas Congressmen. The same correspondent asserts that the President issued orders yesterday to force through the Lecompton Constitution at all hazards, and at whatever cost.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been actin as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been employed as Solicitor, and has been in the constant practice of extensive correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Laws, and with the rules and practice of the office, and has given attention to the interests of his clients, and a liberal candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and by his scientific attainments and such as eminently fit him for the business in which he is about to engage.

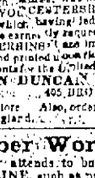
TO BE THE

Only Good Sauce.



EXTRACT of a Letter from a Medical Gentleman AT MADRAS TO HIS BROTHER at Worcester, May, 1851.

"The LEA & PERRINS Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome sauce that is made."

EVERY VARIETY OF DISH

The only Medal awarded by the Jury of the New York Exhibition, for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world-wide fame of which, having led to numerous imitations, purchasers are earnestly requested to see that the names of "LEA & PERRINS" are impressed upon the Bottle and Stopper, and printed upon the Labels.

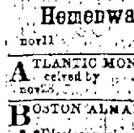
FLOUR,

Wheat Meal & Shorts.



The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 300 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing. 350 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels; as is the case with nearly all the wheat manufactured in the large establishments for large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber. Office No. 27 West Market Place. Samples may be seen at the Stores of JOHN McLAUGHLIN, No. 40 West Market Place; O. D. HOLT & SON, Broad Street, and HELLIER & BOARDMAN, Hammond st.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire through Tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, in 2 1-2 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have also been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails at Aspinwall, thus accompanying passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be applied by one of the Company's Agents before they can be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

No. 10 Broad Street, Boston.

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families, and travelers are reminded, that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

THIRD DIVISION.

$310,000 WORTH OF FARMS & Building Lots, in the Gold Region of Culpepper County, Va., to be divided among 10,250 subscribers, on the 7th of December, 1857. Subscriptions only *ten dollars* down, or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a building Lot or a Farm, ranging in value from $1,000 to $25,000. These FARMS and LOTS are selling cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 1350 Lots are already taken, and a company of settlers, led to the *Rappahannock Pioneer Association*, is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.

☞ Nearly 85,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $800 per acre.—*Unpatented bounties will in all cases be given.*—WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted; and

CHECK.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted, to their size, for the market, by containing from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well-furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which, Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly, to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

OLDTOWN HOUSE,

Oldtown, Maine.

BY MRS. HARRIET STINSON.

The undersigned very respectfully informs her friends and the public generally, that she has lately refitted and refurnished the *Oldtown House*, and is prepared to accommodate all who may favor her with a call. Every attention will be bestowed upon guests and travelers, who are assured that for a brief or long stay, they will find their wants and comforts well cared for. The table will always be supplied with the best the market affords, and all the luxuries of the season.

In connection with the above House is a large and well finished hall, suitable for Dancing parties.

Connected with the House is one of the largest Stables in Oldtown, with the best accommodations for horses and teams, which is under the care of a faithful hostler.

Parties from Bangor, or other places, can be accommodated on reasonable terms, on giving a short notice. HARRIET STINSON.

AMERICAN HOUSE,

BOSTON.

Re-establishment of the old plan of management.

LEWIS RICE, Proprietor, respectfully announces that he has resumed the *old plan* of management, as it existed before the recent alteration. Trial of the European system in *this Hotel*, proves, that although the advantages are great, yet the plan is better adapted for the *smaller class* of hotels.

The accommodations and conveniences of the House are unsurpassed, and the recent improvements and alterations, for the comfort of guests, leave nothing to be desired.

TREMONT MILLS.

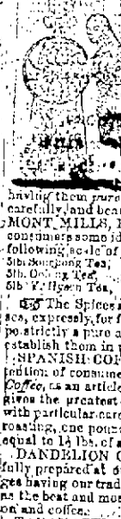
Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)

No. 8 Broad, near State Street,.....Boston.



Supply the best, finest and purest articles at the *lowest Cash prices.* Their stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tartaric acid or Prepared Duffin Soda, &c.

Having every facility for manufacturing and preparing the several articles pertaining to the trade, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label.

TREMONT MILLS, E. E. DYER & CO.

To give consumers some idea of our sales, we annex the following scale of prices, viz:

50lb Shipping Tea, 175 lbs. Mocha Coffee, 1,00
50lb Oolong Tea, 250 lbs. Java Coffee, 1,00
50lb Young Hyson Tea, 2,00 lbs. Good Coffee, 1,00

☞ The Spices are put up in 1 and 4 lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our Taraxacum in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rates.

TO COUNTRY PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

IMPORTANT LETTER

From Brunswick.

Mr. C. W. Atwell, Portland.

DEAR SIR—For the last seven years I have been severely afflicted with sore eyes. During that time I have used every thing in the market, and to no effect for the better, until I obtained a box of DR. PETTIT'S EYE SALVE, which I have used, and I now believe my eyes entirely cured. To all afflicted with any disease of the Eyes, I would cheerfully recommend the use of the AMERICAN EYE SALVE.

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S CONDITION POWDERS For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes, they require an assistant to help to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Hidebound, &c., all of which will be prevented by stirring one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same feed.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first appearance, to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.

We, the subscribers, hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.

They will clean the Worms and Bots out of a Horse's stomach, and give him a good appetite for his food, and a good coat.

They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed.—(Signed 1y.)

Tom otby Wires—Mr. Butler would say that Mr. Wires is the proprietor of the Canada House all Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Morgan Nutting, which was sold at $18,00 at four years old.

Ignatius Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Tony, which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 50 horses and colts, and makes great use of Miller's Condition Powders.

West B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Flint—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on Railroad.

H. A. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We the undersigned, fully concur in the above recommendation of Miller's Condition Powders.

American & Foreign Patents.

H. H. EDDY,

Solicitor of Patents,

(Late Agent of U.S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity, or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that of no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are herefelt by inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, H. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor, for procuring patents.—The Messrs. Eddy, if any, persons acting in that capacity, who had the most business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in asserting that persons who employ a person more competent and faithful in every respect, or more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office, than Mr. Eddy."

EDMUND BURKE,
Late Commissioner of Patents.

From the present Commissioner:

"August 27, 1855.—During the time I have held the office of Commissioner of Patents, H. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business at the Office. As an Attorney, He is thoroughly acquainted with the law, and the rules of practice of the Office; I regard him as one of the most capable and successful practitioners, with whom I have had official intercourse.

DR. SANFORD'S INVIGORATOR, or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as by *magic, more like the first days* of Moses than one living in the present age. It is a common headache of a *Diseased Liver.*

The Liver is one of the largest organs of the human body, and when it is out of order, or fails to perform its functions, the whole system is deranged. The stomach is almost entirely paralyzed, the bowels are at fault, and in consequence of one organ being out of order, the whole system suffers for the want of the one that ought to do its duty. For one of the proprietors has practiced as long (seven years) as he cares to, (and some think he has practiced too long already,) he therefore knows from experience, and from close study, that the Liver is at least found in any person complaining, in any of its forms, and conviction is certain.

A compound has been discovered, and is now offered to the public, which is soluble to the active virtues of the medicine, and will penetrate all morbid or bad matter in their pure state, and in their pure state a healthy action of the stomach, causing food to digest well, purify the blood, giving tone and strength to the whole machinery of the human system, and effecting a radical cure. Headache can be cured by the use of two teaspoonfuls at a dose. The Invigorator accomplishes this in from fifteen minutes to one hour. For Dyspepsia or Sour Stomach, Biliousness, Jaundice, Sick Headache, Costiveness, or Piles, it is warranted to cure. For Female Obstructions, Irregularities, or Suppression of the Menses, it is unequalled. It removes the cause of disease. Give it a fair trial, and no pay required. Give directions, and if not found as represented, no pay will be taken. Take it according to directions, and if it does not cure, it will not injure the system in any way.
